## DETAILED ACTION

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1 and 3 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 and 6 of U.S. Patent No. 6,717,638. Although the conflicting claims are not identical, they are not patentably distinct from each other because a semiconductor layer in claim 1 and 6 of U.S. Patent No. 6,717,638 with a source electrode and a drain electrode forms TFT of claims 1 and 3 in the instant application, wherein the contact is ONLY at portion where the color filter is overlapping ONLY edge portions of the source and drain electrodes.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 2871

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Nagata et al. (US6060199A).

In regard to claims 1 and 3, Nagata et al. teach (Figs 3A-B) a LCD device comprising:

- a thin film transistor TFT formed on a substrate 5, the TFT having a gate 12, a source 16a/17a/18a and a drain 16b/17b/18b ( the transparent conductive layer 17a-b and the metal layer 18a-b can consider as the source and drain of TFT);
- a color filter layer 8 on the TFT to be in direct contact with at least the source or drain; wherein the contact is ONLY at portion where the color filter is overlapping ONLY edge portions of the source and drain electrodes;
- a pixel electrode 10 formed above the color filter layer to be in electrical contact with the drain;

wherein

Claim 2:

- the color filter layer and at least source or the drain in direct contact such that are no intermediaries therebetween as shown in Figs. 3A-B.

Claim 4:

- no passivation layer formed between TFT and the color filter layer as shown in Figs. 3A-B (claim 4).

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
